Training Program on Python Programming (10th May, 2023 to 9th June, 2023)

Python is a high-level, versatile programming language known for its readability and simplicity. Created by Guido van Rossum, Python emphasizes code readability, making it a preferred choice for beginners and experienced developers alike. It supports multiple programming paradigms, including procedural, object-oriented, and functional programming. A 30 Days Python Programming Masterclass was held for the undergraduate students from 10th May, 2023 to 9th June, 2023. Dr. Souvik Ganguli from the Department of Electrical and Instrumentation Engineering, Thapar Institute of Engineering and Technology, Patiala was the coordinator of the program.
